flyDetect®
IPM Online Monitoring System

QUANTUM LED

PURPOSE BUILT UNIT TO ALLOW THE CAMERA TECHNOLOGY TO CAPTURE THE FULL STICKY BOARD.

NEW AND IMPROVED

WITH NO SUBSCRIPTION FEES AND QUANTUM X LED TUBES

The pioneer in flying insect remote surveillance just got **even better.**

flyDetect X is built for **24/7 remote fly monitoring**, allowing visual access to images of the trap's sticky board on demand. With **customisable alerts** and **multi-site visibility**, whilst consuming less than half the power of the fluorescent model and now with **no subscription fees**.

Confidence in
Fly Control

1. Capture

Built-in high-resolution camera captures the entire sticky board. Each flyDetect® trap captures one image per day at a time selected by the user or on demand.

2. Notify

- Dedicated mobile & web apps.
- Immediate notification of emerging pest infestations.
- Customise your alert levels and thresholds
- Set up and monitor multiple clients on a single dedicated platform

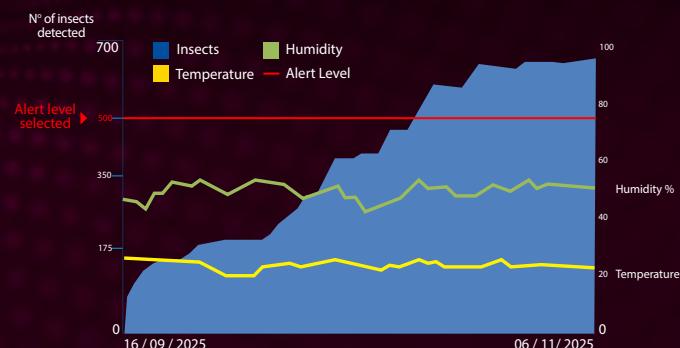

3. React

- React immediately - proactive control
- Check effectiveness of your fly control IPM remotely
- Prioritise your visit - attend only when needed
- Complete record keeping for audits

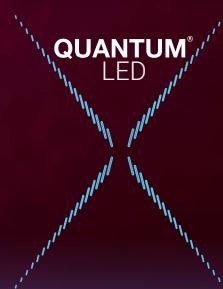

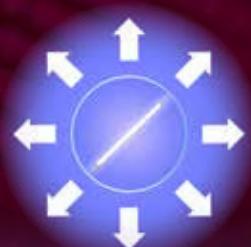

TREND ANALYSIS

flyDetect® X

featuring the revolutionary Quantum® X LED filament technology

360°
UV BEAM

- No mercury
- Environmentally sustainable
- FEP shatterproof coated
- Future-proof

DIMENSIONS:

H:22cm W:68cm D:15cm

WEIGHT:

5.6kg

COVERAGE:

70m²

FINISH:

- Black polyester powder coated Zintec steel

TUBE DATA:

- 2 x Quantum X LED tubes
- Shatterproof coating with industry compliant FEP
- Powered by a state of the art LED driver
